

# Cold Around My Heart

Ali Campbell

So cold around my heart  
So cold around my heart  
Here in the afterglow  
Of the late night show  
one thing I want to know  
Do you really have to go  
Here in my loneliness  
I fear I must confess  
My lifes become a mess  
So full of emptyness  
It gets so cold around my heart  
Whenever your not here  
It feels like I've been torn apart  
Its everything i fear  
So cold around my heart  
So cold around my heart  
It gets so cold around my heart  
Whenever your not here  
it feels like I've been pulled apart  
Its everything I fear  
So cold around my heart  
So cold around my heart  
So here inside of me  
Theres a raging sea  
You know I can't break free  
And I stay here willingly  
If there was someone who  
Would make me feel brand new  
I think that I would do  
all i could do to forget you  
It gets so cold around my heart  
Whenever your not here  
It feels like i've been pulled apart  
its everything I fear  
So cold around my heart  
So cold around my heart  
So cold around my heart  
So cold around my heart
