## Lying Season

## **Alice In Chains**

There's no reason To denv It's the season Of the lie Having someone Grin at you Look at little fingers Pointing truth Man it's a weight on my mind And that's fine But now we wade past the point of decline There's no time I'm a believer In the new Past receiver All come true Look to the east Filled with hate Neutral flashers While we wait Man it's a weight on my mind And that's fine But now we wade past the point of decline There's no time I'm an old lover You're so sane Who's the answer Of what I mean In this ocean I fell into Break me out of The shell I grew Man it's a weight on my mind And that's fine But now we wade past the point of decline There's no time There's no time (There's no time) There's no time (There's no time) No time (There's no time) No time (There's no time)
