

Words

Alien Ant Farm

I was so happy
now your gone
things were so easy
now your gone
the way that we used to
now your gone
My mind I'll be losing.

Now that it seems you'll soon be leaving
And I can't retrieve you, And I can't believe
Now that your gone I'm barely breathing
Words to believe,
We're still bleeding

We were a sure thing
For so long
All these years wasted
Way to long
Things aren't what they used to
We belong
Now times are confusing

Now that it seems you'll soon be leaving
And I can't retrieve you, And I can't believe
Now that your gone I'm barely breathing
Words to believe,
We're still bleeding

Now that you've gone
I spend my evenings
Broken and fighting
Smoking and drinking

Now that it seems you'll soon be leaving
And I can't retrieve you, And I can't believe
Now that your gone I'm barely breathing
Words to believe,
We're still bleeding

Now that it seems you'll soon be leaving
And I can't retrieve you, And I can't retrieve
Now that your gone I'm barely breathing
Words to believe,
We're still bleeding
