

Longest Highway

Alison Krauss

Lost in the silence
Surrounded by daydreams
Holding that someone
That's holding my heart

Thrilled with the memory
Of the smile that you gave me
Gives a close feeling
Though we're far apart

The longest highway runs between us
Though you're just a heartbeat away
When I think of you, my heart knows no difference
I've got you with me every day

If I could be anywhere
I'd truly be with you
Then once feel the embrace
Of your hand in mine

The longest highway
Can sure seem forever
Through every daydream
I feel closer each time

The longest highway runs between us
Though you're just a heartbeat away
When I think of you, my heart knows no difference
I've got you with me every day
