

I Remember

All Saints

I like to say it's good to meet you
An old face from the past
Reminding me of moments
The time we were all mad

The times we stuck together
The times we fell apart
Memories to be proud of
A treasure here in my heart, yeah

And now I see you here in the room
I realized how we have changed
How much I've missed you
Our memories of the past stay the same

I remember, babe, when you were mine
I remember, I remember
Babe, back in time, I remember

We partied long ago
I can't believe that you're here
Remember we said our last goodbyes
And we shared out last tears

Used to out, I forgotten ya
Said, I need you out here
Schooldays are good to remember
Memories last forever

And now I see you here in the room
I realized how we have changed
How much I've missed you
Our memories of the past stay the same

I remember, babe, when you were mine
I remember, I remember
Babe, back in time, I remember

I remember, babe, when you were mine
I remember, I remember
Babe, back in time, I remember
