

# One Me and U

All Saints

Time, space all over the place  
Whenever you're near me  
I'm here my feelings are clear  
I've never felt so sure  
You've changed the way I create  
I'll go wherever it takes me  
Pain, tears, lead us to here  
You bring me so much joy

[Chorus]

I don't know what you do  
But I stagger and fall  
Trip up in my shoes when I'm walking with you  
We can fight, make up, whatever the mood  
'Cause there's only one me and you

Here now is where I see how  
My feelings can taint me  
Cold, cool, sometimes misunderstood  
That's not how I wanna be  
The cause of pain through all of my shame  
See I know you'd never waste me  
'Cause love my dear,  
Yes it leads us to here

I don't know what you do  
But I stagger and fall  
Trip up in my shoes when I'm walking with you  
We can fight, make up, whatever the mood  
'Cause there's only one me and you

I don't know what to do  
But I stagger and fall  
Trip up in my shoes when I'm walking with you  
We can fight, make up, whatever the mood  
'Cause there's only one me and you
