

Baby Come Back

All Star United

Did you get the letter
That I sent you
Trying to remember what the letter said
After all the heartache you put me through
I need you like a hole in the head
Then I saw the little light was blinking
You left a message like an angel singing

Baby come back
Come back to me
I think I'm going crazy
Baby can't you see
That I love you
Oh, baby come back to me

Now how am I gonna keep that letter from you
How am I gonna take back all the things I said
Was I thinking when I cursed your mother
Signed the letter "wish you were dead"
Baby, tell me how I got so stupid
I've been shooting arrows back at Cupid

Staking out
Your postman's route
Better take a bribe
Before I take him out
Take the letter back

Oh my darling
Baby come back
I miss you so
How could I have been so stupid just to let you go
Now my darling
I'm so sorry, I've been such a fool
And I want you back
Baby come back
