

Everything Will Be Alright

All Star United

To everyone I could not meet
I'll spell it out in lyrics simple and neat
To all of you who never knew this until now
It's flowing in fountains
And I'm counting on moving mountains
'Cause I know when You're near me
Everything will be alright
And I'm sure when You're close by
Everything will be alright
So if you wish to help yourself
Cry out "Jesus" with a capital "Help"
Tell your fear "disappear and fade away"
You get me through, that's what You do
You lit me up I'm burning like
Lightning up in the sky
Even if the sun refuses to shine
And stars played hidaway
That's alright, that's OK
To everyone I could not meet
I know it sounds a little sugary sweet
But how can I even try not to explain
