

International Anthem

All Star United

Listenin' to this
I'm transcending English
Something's bigger
Than the national hymn

If you're thick, too thin
Green, blue or pinkish
Hum together with a cellophane skin
A holy karaoke, prayer in stereo

Here it comes, here's to You
An international anthem is overdue
Here's to You

To the kings and queens
And all the president's men
It doesn't matter if you're strong
King Kong

Lose the things
Between yourself and Heaven
And then, when you're ready
You can hum along
A holy karaoke, prayer in stereo
From down here below

Here it comes, here's to You
An international anthem is overdue

Here's to You
From down to here below
In gratitude from Coco to Moscow
We hope you're pleased
With these rhyme schemes
And musical score like never before

Here it comes, here's to You
An international anthem is overdue

Here it comes, here's to You
An international anthem is overdue
Here's to You
