

Surface Of The Sun

All Star United

She's dreaming of a dream of Shangri-la and milk and honey
It's not the real thing but just enough to get her high
She know's how cold it seems even when she's burning money
She need's the fire of love to make it alright
Love is the sun the destination
Love is a movement reaching out to everyone
Come on, come on, come on, come on, come on
Turn up the love, turn up the love
Come on, come on, come on, come on, come on
We're gonna start a revolution
Taking a trip to the surface of the sun
Under the crimson sky where brother's always fighting brother
We watch the flowers fade as tears are falling from our eyes
Can someone tell me why we forget we have a lover
Who's love is deeper than the velvet night
Love is a spirit, love is divine
Love is the reason we can feel the sunshine
Everybody come along for the ride
Love is a fire, love is alive
