## Behold (God I Am)

## **Allegaeon**

Man's greatest mystery
It's human nature to believe in something
Legions died throughout history
In debate of the one true deity

Ages refuting cloned scriptures Races of reigning terror

Behold the anger inside Eyes of the innocent sent their demise Foretold leaders we create We the puppets you manipulate

Man's greatest tragedy
Opposing sects feud on similar theories
Theologies crucify in the name
Disputing the absolute being

Ages refuting cloned scriptures Races of reigning terror

Behold the anger inside Eyes of the innocent sent their demise Foretold leaders we create We the puppets you manipulate

In defiance over existence Fueling aversion, feeding envy

Infinite sermons, an endless tirade One creator of endless carnage

What logic explains contradiction Denies equality, promotes eradication

Behold the anger inside Eyes of the innocent sent their demise Foretold leaders we create We the puppets you manipulate

So created, so destroyed Behold, God I am (2x)
