

Failure

Allister

It's just another wasted day another wasted year
I'm stumbling and falling crashing on despair
I'm just another nobody whose time has just passed by
I'm just another failure so tonight I'll make it all right
It's just another wasted breath on another cigarette
My world is wrapped inside frustration and regret
I'm just another nobody whose time has just passed by
I'm just another failure so tonight I'll make it all right
I'm dying, I'm trying to stay in control
You're stealing my feelings
Don't leave me alone
Someone save me tonight and I'll be all right.
