Hey Brother

Aloe Blacc

Hey there, brother, watch your little lady She's a little faster than you think Hey there, brother, watch your little lady She'll be sneaking 'round every time you blink

Now I don't know how she got my number But she been calling all through the summer Saying she really need to see the color Now don't that make you wonder

Hey there brother, hey there brother

Hey there brother, watch your little momma She's a little hand full, yes she is Hey there brother, watch your little momma She got herself a hand full, yes she did

Can't you see you're getting played you fool She's letting everybody take it as cool All up in the backyard shooting pool And I don't mean to sound cruel

But hey there brother, hey there brother

Hey there brother, look what she's doing to you Hey there brother, she's playing you for a fool Hey there brother, look what she's doing to you Hey there brother

Hey there brother, what's with your girlfriend She ain't being loyal, no she ain't Hey there brother, what's with your girlfriend You should hear the things that she's been saying

Well the word on the street is that it won't be long Before she packs up and moves on She's just using you like a comb Now don't you think it's wrong

Hey there brother, hey there brother Oooh, hey there brother
Look what she's doing to you
Hey there brother
She's playing you for a fool
Hey there brother
