```
Who'd take my hand
Who'd take my hand
I wanna show you
Something that you never seen
Why don't you come
Look at me so
```

Never felt, never felt
Never felt, love
Never felt, never felt
That love could hurt so much
That love could hurt so much

I can't believe that I'm seeing this love I can't believe that I'm seeing this love I can't believe that I'm seeing this love

Still hold her close Her close

He breaks my hand

So many times

Wake up now, wake up now, wake up now Wake up now, wake up now

Who'd take my hand
Who'd take my hand
I wanna show you
Something that you never seen

Never felt, never felt
Never felt, love
Never felt, never felt
That love could hurt so much
That love could hurt so much

I can't believe that I'm seeing this love I can't believe that I'm seeing this love

I can't believe that I'm seeing this love
