

# Burn It Down

Alter Bridge

Drank so much last night  
I think that I drowned  
But now my cup is empty  
No one has seen my will around  
Now my heart is aching  
Sometimes I fall asleep for days  
But my bed is empty  
I know I am too set in my ways  
Tell all I am ok

So burn it down  
Discover the dusk of your day  
Has reached its dawn  
So burn it down  
Remember to find a new way to carry on

Flew so high last night  
I think that I fell to the ground so heavy  
Woke up to find this living hell  
It used to be so easy  
Hard to tell my nights now from my days  
The curtains hide my feelings  
Don't feel I have any right to pray  
And they will find me someday, Someday

So burn it down  
Discover the dusk of your day  
Has reached its dawn  
So burn it down  
Remember to find a new way to carry on  
So burn it down  
Discover the dusk of your day  
Has reached its dawn  
So burn it down  
Remember to find a new way to carry on

And whatever takes us anyway  
Will be the same to drive us on  
Remember to find a new day

So burn it down  
Discover the dusk of your day  
Has reached its dawn  
So burn it down  
Remember to find a new way to carry on  
So burn it down  
Discover the dusk of your day  
Has reached its dawn  
So burn it down  
Remember to find a new way to carry on
