Talk Don't Bother Me

Alvin Lee

Talk don't bother me
Don't care what people say
Anyway that you take me
Don't matter anyway

'Cause I live the life I choose
Found a way to cure the blues
With the woman I love

I can't change my mind
I live the way I choose
And I thought that I could find
A way to cure the blues

There ain't nothing wrong with me
'Cause the blues has set me free
With the woman I love

Talk don't bother me, yeah
Don't care what people say
Anyway that you take me
Just don't matter anyway

'Cause I live the life I choose
Found a way to cure the blues
With the woman I love

I live the way I choose
And I thought that I could find
Sure way to cure the blues

There ain't nothing wrong with me
'Cause the blues has set me free
With the woman I love
