

# Above The Clouds

Amber

Love lifts us up [Repeat: x2]

Remember the pain we put eachother through  
Remember the tears you cried, I cried too  
Remember how close we came, to giving up  
Remember the heartaches that were destroyed  
Remember the arguments, we employed  
Remember the lines we drew, and the lines we crossed

If we had known it would be so hard,  
Would we have set out on this road together  
Now when I look into your eyes I can see forever

[Chorus]

We're flying above the clouds, so beautiful & clear  
We're flying above the clouds, I can see happiness from here

Love lifts us up [Repeat: x2]

Remember the silence living in the dark  
Remember the desperation in my heart  
Remember how close we came, to giving up

We were caught up in our storm, I didn't think that we would make it  
We have only stood our grounds, now the storm is breaking

[Chorus]

Sweet love, to a higher ground  
Love lifts us up [Repeat: x2]

If we had known it would be so hard,  
Would we have set out on this road together  
Now when I look into your eyes, I can see forever

[Chorus: x2]

We're flying so beautiful love lifts us up  
There is so much happiness don't ever stop
