

A Message to the Masses

Amen

Hit back burn black
Turned off naked in belief
Unjust and unheard
My eyes have never seen

Wanna get it gonna give it to you
You got a lesson got a lesson to learn
And your eyes have never seen
Gonna get it right back to your heart

My crime is semen
Around you it's never long
It's too hard to see
And you'll never know never know
Never know

Wait and turn off the lights
Let the day die tonight
Let us ride ride ride tonight
We can do it alright we can do it alright
Let the day die tonight, yeah

You wanna get it gonna give it to you
You wanna get it gonna get it right now
And your eyes have never seen

I got a message got a message to the masses

My eyes and your mind
No one's ever gonna tell me what to see
Your eyes your mind
Your mind
Wait and turn off
Turn on
Wait and turn off
Turn on
Wait and turn off
Turn on
Wait and turn off
Now
