A Message to the Masses

Hit back burn black Turned off naked in belief Unjust and unheard My eyes have never seen

Wanna get it gonna give it to you You got a lesson got a lesson to learn And your eyes have never seen Gonna get it right back to your heart

My crime is semen Around you it's never long It's too hard to see And you'll never know never know Never know

Wait and turn off the lights Let the day die tonight Let us ride ride ride tonight We can do it alright we can do it alright Let the day die tonight, yeah

You wanna get it gonna give it to you You wanna get it gonna get it right now And your eyes have never seen

I got a message got a message to the masses

My eyes and your mind No one's ever gonna tell me what to see Your eyes your mind Your mind Wait and turn off Turn on Wait and turn off Turn on Wait and turn off Turn on Wait and turn off Now Amen
