Bring me the head of Roman Polanski Bring me the legs of Fred Astaire

We come from a place called heaven That you made hell, that you can sell We set fires to this lesson That heavens sell, that lesson failed

War, we need this war War, we need this war Right on

Bring me the head of Roman Polanski Bring me the legs of Fred Astaire

We come from this hell called heaven That vision's held, that vision killed We set fires to your lessons Your babies kill, your babies guilt

War, we need this war War, we need this war Right on

Sell it now, selling out Everyone you know is selling out Sell it now, selling out Everyone you know is selling out

?Cause there?s a war and you believe it ?Cause there?s a war and you don?t care Sell it all, sell it now, sell it now

?Cause there?s a war and you don?t see it
?Cause there?s a war and you don?t care

Sell it now, selling out Everyone you know is selling out Sell it now, selling out Everyone you know is selling out

Bring me the head of Roman Polanski Bring me the legs of Fred Astaire
