

# Save Me

American Hi-Fi

I've been so low  
Yeah I've been so strung out  
Can you picture this  
I'll take something  
It's better than nothing, anything  
That you've got to give

I can't let go  
I don't want you to know  
I've been down so long  
Could you save me  
I'll fight my way  
Just to hear you say  
If I go up in flames  
Could you save me

The more you whisper  
The words keep stinging in my ear  
We're never gonna be the same  
Sunshine fading and black sheets  
Raining down on me  
They cover up everything

I can't let go  
I don't want you to know  
I've been down so long  
Could you save me  
I'll fight my way  
Just to hear you say  
If I go up in flames  
Could you save me

I've been so selfish  
I get so high  
Don't wanna come down

I've been so low  
Yeah I've been so strung out  
Can you picture this

I can't let go  
I don't want you to know  
I've been down so long  
Could you save me  
I'll fight my way  
Just to hear you say  
If I go up in flames  
Could you save me

Yeah could you save me  
Oh could you save me
