American Hi-Fi

I will begin again
Don't know how and don't know when
Something's gotta give

So far I fall from grace Taking all the breathing space Won't you let me in?

There's beauty in the sound Butterflies go underground On a busy sea

Still floating in the dark Waiting for a tiny spark Lucky to be free

I wanna hear you say it's all

I wanna hear you say

I wanna hear you say it's all

I wanna hear you say

I wanna hear you say it's all

I wanna hear you say

I wanna hear you say it's all

I wanna hear you say, baby, it's alright
