

Been giving me remote control
Pick up the telephone - Hail Mary
I feel like I could shoot the moon
My bliss cut and dirty

And anyone can drown swimming round my head
Slipping over the precipice
Stepping off of the edge
Aware that the body had died
"I'm in here" she cried
"I'm human inside
I'm human inside -
Can't anyone hear me?"

And that's one year less I guess
I'm booming out of the other side
Now that I'm frozen like a crystal ice age
In a cadence of harpsichords
Well I heard the raindrops fall

And anyone can drown swimming round my head
Slipping over the precipice
Stepping off of the edge
Aware that the body had died
"I'm in here" she cried
"I'm human inside
I'm human inside -
Can't anyone heal me?"
