You should have known
You should have seen it
You've been moving too slow
Trying to stay in control
You better jump
Gotta risk it
Can't be playing it safe
Take a risk for a change
This is what you do, you gotta let go
You can be whatever you like

A brand new day
Come out and play
Let the devil you know fade away a-ah
A brand new day
The feeling is great
Don't you ever look back
You might miss tomorrow coming your way

I rule the world
You see me dancing
Think I'm one of a kind
Don't go out of your mind
I'm only a girl who's taken chances
And I'd do it all again
Cause the party never ends
Gotta let me prove it
I'll show you the way
This could be time of your life

A brand new day
Come out and play
Let the devil you know fade away a-ah
A brand new day
The feeling is great
Don't you ever look back
You might miss tomorrow coming your way

You shouldn't lose another day
Nothing comes to those who wait
You don't have to be afraid anymore

A brand new day
Come out and play
Let the devil you know fade away a-ah
A brand new day
The feeling is great
Don't you ever look back
You might miss tomorrow coming your way

A brand new day
Come out and play
Let the devil you know fade away a-ah
I said a brand new day
The feeling is great
Don't you ever look back
You might miss tomorrow coming your way
