

# Take My Pain Away

Anarbor

You gotta feel it  
bet it keeps you up at night  
you know that I'm leaving  
everything will be alright  
And even when I'm miles away

You got me high like cocaine  
we're moving faster than a freeway  
and I can feel you in my veins  
baby take my pain away  
take my pain away

Hit me like a kick drum  
love me like we're still young  
we're older but we're still the same  
baby take my pain away  
take my pain away

So, this ain't easy  
I'll make worth it if you see it through  
days, without speaking  
probably think I'm over you  
And even when I'm miles away

You got me high like cocaine  
we're moving faster than a freeway  
and I can feel you in my veins  
baby take my pain away  
take my pain away

Hit me like a kick drum  
love me like we're still young  
we're older but we're still the same  
baby take my pain away  
take my pain away

Thinking about you  
even without you  
wishing, I'm praying  
hoping that he's saying

You got me high like cocaine  
we're moving faster than a freeway  
and I can feel you in my veins  
baby take my pain away  
take my pain away

You got me high like cocaine  
we're moving faster than a freeway  
and I can feel you in my veins  
baby take my pain away  
take my pain away

Hit me like a kick drum  
(hit me like a kick drum)  
love me like we're still young  
(love me like we're still young)

we're older but we're still the same  
baby take my pain away  
take my pain away

baby take my pain away  
(take my pain away)
