

# All Fall Down

Anastacia

No one's born in this world without a soul  
Some will follow every single road trying to find a home  
But when you're sheltered by the ones you love  
You can stand protected safe from harm

In your life don't ever let me fall  
Cos sometimes I think I'm falling like a burning satellite  
You Sacrifice, it doesn't matter who you are  
We all fall down

We were moving slowly past the point of no return  
Silence is a deadly potion when you have no words  
And we can but the pieces back together  
Find a way to make things right (yeah yeah)

In your life don't ever let me fall  
Cos sometimes I think I'm falling like a burning satellite  
You Sacrifice, it doesn't matter who you are  
We all fall down

Don't stop believing in what you're feeling  
We all fall down

But when you're sheltered by the ones you love  
You can stand protected from harm

In your life don't ever let me fall  
Cos sometimes I think I'm falling like a burning satellite  
In my eyes you'll always be the shining star  
Through the trials and tribulations, I will know that you're the one

In your life don't ever let me fall
