I'm coming down, down again Cause I can't let go On and on I can't let go On and on If you are not there I'm coming down this road again If you I love Then where are you? I'm coming down, down again If you I love Then where are you? There's something wrong, wrong again Oh, I can't let go On and on I just can't let go On and on If you are not there I'm coming down this road again If you I love Then where are you I'm coming down, down again If you I love Then where are you? I'm coming down this road again
