

# The Beloved

Anathema

Another day unfolds, still I exist  
Never felt so cold, I never knew I was turning away  
Though I can't explain, I only love you now that you missed  
As I stand in the rain, leave me to go through this

I don't think I could face another sleepless night  
If only I could trace that elusive light  
In a dreamland flight to your agonizing eyes  
A never ending flight, my silent cries

Still I close my eyes and my mind becomes clear  
Still I dream, and there you are...  
How still you lie and how your eyes bring back the fear  
Still I can't face what's going on in here...

Everything that I've ever felt has gone,  
At last my spirit breathes  
I see no point in going on  
So goodbye... It's time for me to leave
