

Write down, to remind yourself  
on how it can be, how it can be  
Heartstrings, you're tugging at  
my heartstrings, my heartstrings  
Helpless, I have become so helpless  
to your touch, oh touch me somehow  
Restless, you leave me restless  
breathless wait for me

The closer I come to you  
the closer I am to finding God  
You're a miracle to me  
The closer I come to you  
the closer I am to finding God  
You're a miracle to me

Burning, like Joan of Arc  
to see you, just to feel you  
Cadence, well I'd dance with the dead  
'cause I believe, yes I believe, yes I believe  
Stifle, Paul said that you  
stifle him again and again and again

The closer I come to you  
the closer I am to finding God  
You're a miracle to me  
The closer I come to you  
the closer I am to finding God  
You're a miracle to me

And if these are my parting words  
Grant me this, my last request  
Hold me here, until I sleep  
If I burn, then I burn for you

The closer I come to you  
the closer I am to finding God

The closer I come to you  
the closer I am to finding God

The closer I come to you  
the closer I am to finding God  
You're a miracle to me  
The closer I come to you  
the closer I am to finding God  
You're a miracle to me
