

From Beyond The Grave

Ancient Rites

[Bonus Track]
My body is blown
My soul is worthless
This keeping in love with you
Forever and above all
From beyond the grave
Just as I promise you who ever was alive
Death will take away
My heart is haunting for the flesh
Forever is it you
From beyond the grave
You will haunt it now
All I need is to follow the death
From beyond the grave
My heart is looking for the death
From beyond the grave
It shows me to go to hell
