

## And I Love You

## And One

Lying by your side  
Your eyes are shining bright  
Whispers in my ear while I'm holding you tight  
If you fall asleep  
I just try to keep  
Every single word you've said to me

The hours passing by  
Words are passionately  
Deep inside I feel that you love me  
Deep inside I feel that you love me

And I love  
And I love you too

Don't say a word  
It's enough to see  
That every part of you is loving me  
Every part of you is loving me

And I love  
And I love you too

And I love  
And I love you too
