

# The Great Commandment

And One

Some people suppress you  
They patch you  
And reap a disaster  
Reeducation for the infants  
Who demanded for an innocent instance

The great commandment  
Shows the contempt  
Between the world and their embarrassing pavement  
Believe the scholars  
Read the readings  
Realize the man who says anything

The great commandment...

The needies believe you  
They treat you  
Like survivors of a disaster  
Reeducation for the infants  
Who demanded for an innocent instance

The great commandment...
