

## Power Stream

Andre Matos

Do you remember, not too long ago  
the cherry tree blossomed in vain?  
it was so hazy, yet hard to forget  
now all seems to happen again

With the power of your mind  
no desire is denied

It's a power stream you conceive your dreams  
in world you'd never say no  
there's a place to go land of miracles  
where the feeling never went wrong, no no no no

Time is scare now, you better sleep  
forget all the crosses beared  
and though you keep on dreaming, your life is for real  
all you need to do now is dare

With the power of your mind  
every longing can be defined...

It's a power stream you conceive your dreams  
in world you'd never say no  
there's a place to go land of miracles  
where the feeling never went wrong, no no no no
