

# Fool For A Night

Andy Gibb

You don't want to come home cryin'  
Lose that magic in your smile  
Give it up before you start it  
Start to die

Why be a fool for a night  
You'd be a fool to fall for a night  
Gotta let it grow  
Someone you don't really know  
A fool for a night  
You'd be a fool to fall for a night  
Gotta let it show  
Someone you don't really know

Old emotions , time has borrowed  
Tend to make you think you're right  
You're the one I'll all follow  
For all times

Why be a fool for a night  
You'd be a fool to fall for a night  
Gotta let it grow  
Someone you don't really know  
A fool for a night  
You'd be a fool to fall for a night  
Gotta let it show  
Someone you don't really know

And if you run away  
You can't escape from the price you pay , oh no  
And when you realize nobody else will care  
Where are the friends you made  
No one is left who can show the way , oh no  
And when the burden ends , I will heal you  
Time will turn you back to me

A fool for a night  
You'd be a fool to fall for a night  
Gotta let it grow  
Someone you don't really know  
A fool for a night  
You'd be a fool to fall for a night  
Gotta let it show  
Someone you don't really know
