

Calling You

Angel City

Life ain't easy, let the sun shine through
Let me hear your voice when I'm calling you
Just let me know you're there, just let me know you're there
No I don't really care as long as I'm with you
Let me know you're there
No I don't really care as long as I'm with you

Let me hear your voice when I'm calling you
Let me hear your voice when I'm calling you
Let me hear your voice when I'm calling you
Baby let the sun shine through

We can make it easy, what you gonna do
Let me hear your voice when I'm calling you
Just let me know you're there, just let me know you're there
No I don't really care as long as I'm with you
Let me know you're there
No I don't really care as long as I'm with you

Let me hear your voice when I'm calling you
Let me hear your voice when I'm calling you
Let me hear your voice when I'm calling you
Baby let the sun shine through

When we're together, this is something new
When I hear your voice I feel close to you
Just let me know you're there, just let me know you're there
No I don't really care as long as I'm with you
Just let me know you're there, just let me know you're there
No I don't really care as long as I'm with you

Let me hear your voice when I'm calling you
Let me hear your voice when I'm calling you
When I'm calling you, when I'm calling you
When I'm calling you, when I'm calling you
