## **Coming Home**

Here I am - back from nowhere I don't remember - everything I've gone too far There ain't nothing left

It started so softly -Couldn't feel anything at all Ther was no euphoria -Reality was so close

Then fellows and me -We tripped day by day To visit the new world -For the old did decay ...

My soul's flown away -Left an empty space I took a view into hell -But I'm coming home Slave me ...

Mother - please believe me I never want you to die Father, forgive me Your memory lives in me

My soul's flown away -Left an empty space I took a view into hell -But I'm coming back alive ...

I'm coming home I'm coming home Please believe me I'm coming home Deliver me ...
