## **Alison Hell**

Annihilator

Alice, isn't it frightening? Alice, aren't you scared? Alice, isn't it wonderful? Living life afraid Don't look around the corner I might be lurking there Under the bed at night You're up till dawn again

Alison hell, your mind begins to fold Alison hell, aren't you growing cold? Alison hell, you are looking blue Alice in hell, what else can you do?

Alice

I begin my rule, life hideous in your mind Crying out, you've lost your doll It isn't worth a dime

Alison hell, your mind begins to fold Alison hell, aren't you growing cold? Alison hell, what are you looking for? Alice in hell, soon i close the door

Sitting in the corner, you are naked and alone No one listened to your fears, you've created me

Alice, isn't it frightening? Alice, aren't you scared? I was killed at birth I shoot this final scene You're in the basement You're trapped insanity

Alison hell, what were you looking for? Alison hell, as i close the door Alison hell, here you shall dwell Alison hell, Alice dwells in hell

Alice

Alice Alison Alice In hell
