Human Insecticide

Annihilator

Psychotic tendencies have put me here for life Dreams of smashing little things Before they ruin my life Find means capable of smothering a flea Extermination is their end Escaping not from me

Retaliate
Decapitate
I love to see them bleed
Annihilate
I am human insecticide

Creepy black mass
I see one down below
Prepare to strike, act quickly now
Strike the fatal blow
Extinguishing the menace
They will know my name
Destroying these, the lives of waste
Delivered now to pain

Retaliate
Decapitate
I love to see them bleed
Annihilate
I am human insecticide

Asphyxiate the flame of life From hatred they will die Power kept in my control Their souls are caged with mine

Expelled from life, they cannot hide
I will find them out
Their game's lost, I hunt them down
Their end without a doubt
Psychotic tendencies
My dreams are coming true
My plans are set without repent
I'm tightening the screw

Retaliate
Decapitate
I love to see them bleed
Annihilate
I am human insecticide
