

You try hard to annoy me
To creep under my skin
Slowly destroying
The end of me, it begins

Something's building up inside
A rage I've never known (I hope you'll never know)
God help me, please help me
I'm losing control

Save me, take me
To another place, don't wanna see your face anymore
Save me, take me
You're a big disgrace, don't wanna see that face anymore

I'm going mad and I'm sufferin'
Hate, shame and degrade me
I gotta get you out of my head
The abuse that you give me
I think I'd rather be dead

It's time to end this nightmare
It's time to put it behind
