

## The Rush

### Annihilator

Take me, take me to the top of the world  
Please me, got to pick me up, i'm miserable  
Feeling, like nothing ever felt before  
Dealing, it's got me coming back for more

Can't stop, you can't stop the rush  
Spreading out and taking all control  
One taste and your'll need it  
Once in, you never leave it  
So don't try to stop the rush

Slow kill, i know i'll never be the same  
Evil, the torture, gonna drive me insane  
Feeding, the ritual begins again  
Breathing, overload of adrenaline
