

## Weapon X

### Annihilator

Use me and abuse me kick me when I'm down  
You think the damage is down  
But I'm harder and faster than ever before  
With a punch that's second to none  
Bring on the challenger and bring me your best  
Cause you're never gonna let me be  
Give me what you got and try to put me to rest  
But you'll never, never, ever stop me

Weapon X

Reeking of intensity, burning up inside of me  
A mega-force to explode  
Like a time bomb, ticking in the heat  
So you better re-arm and re-load  
Screaming, steaming like a battering ram  
This punishment is here to stay  
There will be no deviation from the masterplan  
So get out of my way

Weapon X

Stalking, creeping, I'm ready for your ambush  
You'll never throw me off of the track  
Pounding, forging, you better hear my warning  
Annihilator is always back

Weapon X
