

All throughout the centuries  
Existing year to year  
Lives on this powerful entity  
To thrive on pain and fear  
A derelict of heavenly Gods  
A feeling from within  
Weakened minds are perfect prey  
Corrosion will begin

Some won't fight, the battle is forsaken  
Show no might, the dark side has awakened

Even in the holiest the curious can be found  
Their wonderment is dangerous  
As virtue is but bound  
Moral codes, broken  
What's the sin that lurks within  
The burning emotion of hatred

Some won't fight  
The battle is forsaken  
Show no might  
The dark side has awakened

Wicked mystic

Hatred lurks in all of us  
No one is exempt  
It's proof of evil in our souls  
Is this the tempter's intent  
A derelict of heavenly Gods  
A feeling from within  
Weak minds are perfect prey  
For corrosion to begin

Some won't fight  
The battle is forsaken  
Show no might  
The dark side has awakened

Wicked mystic  
Wicked mystic, mystic
