

Devils Song (This Feels Like A Nightmare)

Anthony Green

Well I caught a demon in a mouse trap
One day behind the house
It said, "Please let me free, I'll do anything"
We came to an agreement, made an exchange
Your freedom for my name, then he began
He began to sing

Devil's song, won't be too long
To finally see the evil you've become
The Devil cries, all through the night
I don't think there's a reason

Devil's song, won't be too long
To finally see the evil you've become
The Devil cries, all through the night
This feels like a nightmare

I was always told that you're a liar and not to trust
But my name still means nothing and we're all still
We're all still in the same spot
We're all still in the same spot
We're all still in the same spot
We're all still in the same spot
We're all still in the same spot...
This feels like a nightmare...
