

The World That God Made

Anti-System

Is this the world that God made
With poverty, strife & greed
This so called world that God made
With so many people in need
This is pain world leaders gave
Death & pain & fear
As a child crawls another yard
Death hangs just so near

Mummy, help me mummy
Mummy, help me mummy

Is this the pain world leaders gave
Death, disease, starvation
Buying bombs to fuel the arms race
When they could have feed the nation
Also the world that God made
So violent, disturbed & corrupted
And this was the world that God made
Until it all erupted

Mummy, help me mummy
Mummy, help me mummy
