

## Out Of Time

Anubis Gate

There's a fire within  
that may burn your skin  
It can make you blind  
and leave the world behind  
Every night we pray  
that our hearts  
be taken by these forces of magic some day  
It may be today

Long time gone  
My life was merely day by day  
A lone crusade  
through self-denial and delay

The thought of something more  
kept me at war  
until my very mind  
was opened and out of time  
Opened and out of time  
When we spoke  
our words would take the form of a song  
While joined in laughter and tears,  
my sense of time had disappeared

All the things we'd done meant nothing,  
once the ground we walked upon  
was replaced and out of time  
Replaced and out of time

Replaced and out of time...  
There's a light to guide us  
Once we understand
