

## Flying Blind

Anvil

When you are lost and you can't find your way  
Look for a landmark, as an eagle looks for prey  
See the horizon, watch the sun going down  
Into the darkness, light fades all around

Flying blind  
Flying blind

Look at the ground as you fly overhead  
Not the same as the flight plan said  
Into the darkness, light fades all around  
See the horizon, watch the sun going down

Flying blind  
Flying blind  
Flying blind  
Flying blind

When you're flying and you just can't see  
Just can't see where you're going to be  
When you're flying and you just can't see  
The forest from the trees

Travel in circles and going nowhere  
Better or worse, you do what you dare  
Take a chance and fly into the night  
Blind as a bat, searching for the light

Flying blind  
Flying blind  
Flying blind  
Flying blind

Flying blind  
When you're flying and you just can't see  
Flying blind  
Just can't see where you're going to be  
Flying blind  
When you're flying and you just can't see  
Flying blind
