

Life Is Fun

Anything Box

Don't you know that the rain is going to fall,
And that it's beautiful
What you see can remind you of a lover,
And it's wonderful

Just when you want to let it go
Everything in you knows
All the world is at your feet again

Everybody needs somebody
Everybody loves somebody
Don't you know by now that life is fun?
Life is fun

Can't you see that the world is going to turn,
And that it's practical
So it has for a million years or so,
And that is magical

Just when the days seem much too long
Feel the open air
Let the sun reach out to you again

Everybody needs somebody
Everybody loves somebody
Don't you know by now that life is fun?

Life is fun, life is fun
Life is fun, life is fun

(a national obsession)
(we want fun! we want fun!)

Life is fun, life is fun

Everybody needs somebody
Everybody loves somebody
Don't you know by now that life is fun?
