

Who are you? Who are you? I don't know  
Turn my back, turn my back, then I'll see you  
Never seen, never seen, like a sixth sense  
Who am I tonight?  
Coloured lights, doubled twice, resurrecting  
In my mind, countless signs, misleading  
As I pass, see the last, ever changing  
Lifted up, interrupt, all knowing

Something in my head - Telling me to feel like this  
Something in my mind - Wanting me to think like this

I can feel, I can feel, feel your presence  
Good or bad, good or bad, nothing to me  
Come to me, come to me, truest comfort  
Who am I tonight?  
Peeling glass, feel the past, never ending  
Feel my hands, cross the lands, revealing  
Morphing eyes, true disguise, while predicting  
Passing time, come to mind, all showing

Who am I supposed to be, if I don't know who I am  
If I don't trust in myself to be what I'm supposed to be

Something in my head - Telling me to feel like this  
Something in my mind - Wanting me to think like this

What are we, what are we, mental mischief  
Too alive, too alive, never living  
Coming down, coming down, living 2-D  
Who was I last night?  
Waking up to a world non existing  
Shake your head, wake the dead from sleeping  
Positive, negative, come to find out  
Just as real as it feels, it's growing

Something in my head - Telling me to feel like this  
Something in my mind - Wanting me to think like this
