

## Kathy's Song (Come Lie Next to Me)

Apoptygma Berzerk

Oh my love, it's time  
You know how it feels  
You read between the lines  
And know me better than I do  
I lost again, my friend  
You know I'm not a saint  
You've known it all this time  
Still you've been waiting for me...

Oh my love, it's time  
You know how it feels  
You read between the lines  
And know me better than I do  
I'm lost again my friend  
You know I'm not a saint  
You've known it all this time  
Still you've been waiting for me...

Come lie next to me  
Know why you and me are one  
Come lie next to me  
No lies, you and me are one

You know I'm not a saint...
