

An Eventful Day

Arab Strap

If I don't know, I can't understand.
'll get the drinks when you give me back my hand.
You know I'm not that bothered,
we dont have to stay - it's already been an eventful day.
There is nothing that could ever be above you.
There's not much I could ever do.
We had a laugh at dinner and I thought you seemed fine.
Just blame the hormones and too much red wine.
It wont be the last and it's not like it's a first.
Just make something up,
'cause I always feel the worst.
There is nothing that could ever be above you
there's not much I could ever do.
